

HELP SEND LIFE-SAVING PACEMAKERS TO CUBA!

HELP SEND LIFE-SAVING PACEMAKERS TO CUBA!

DONATE TODAY: [GHPARTNERS.ORG/CUBA2024/](https://ghpartners.org/cuba2024/)

Working in partnership with the Saving Lives Campaign and MediCuba Europa, Global Health Partners has sourced pacemakers from a private manufacturer that has already serviced technicians in Cuba. We have already applied for a Commerce Department export license to expedite delivery. The embargo mandates that medical supplies bound for Cuba from anywhere in the world that have more than 10% of U.S. manufactured components require a special export license.

Please join us to raise an additional \$150,000 to provide Cuba with an initial supply of 300 pacemakers.
